

Product Spotlight

Unloading the first trucks for stockpiling before installation begins.

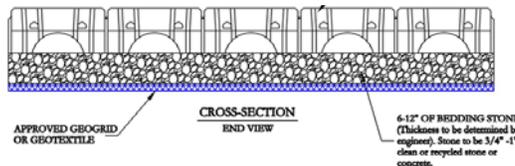

Once the PaveDrain was installed, the concrete was then poured in the remaining areas.

Product: PaveDrain Articulating Permeable Concrete Block Mat
Project: Ingersoll Square II
Owner: Ingersoll Square, LLC.
Engineer: Cooper Crawford
Contractor/Installer: Correl Contractor
Location: Des Moines, IA
Install Date: November 13, 2013

Project Scope: Through the help of grant money to support their efforts, permeable pavement was wanted for this parking lot. Several paver systems were reviewed and PaveDrain was utilized because of its ease of installation, being cabled, and its strength. The engineers at Cooper decided to utilize PaveDrain for all of the parking stalls and pour concrete for the remainder of the traffic areas, mostly to keep the cost in check.

Product Description: The PaveDrain System combines modern-day functionality with a structural concept used for centuries to create the revolutionary permeable paving solution. This system incorporates a patented arch design in the middle of an articulating concrete block to create an internal storage chamber that can be used as a reservoir for stormwater runoff, while providing strength for heavy vehicular loads. It is designed to be a critical component of Low Impact Development allowing for infiltration of stormwater runoff.

ASP/Quick Supply Employee Profile

Name: Kevin Teague
Branch: Fenton, MO
Office phone number: (636) 343-4357

Kevin Teague is St. Louis' inside hardscapes salesperson. He is a family man with a beautiful wife and 2 little boys. He is 32 years old and has been involved with hardscapes for 14 years. One of the reasons our customers enjoy working with Kevin is because he doesn't have to look up the answer. He knows everything from how many pieces are on a pallet, how many square feet it covers, to how to install it. He has worked with 2 hardscape supply companies, and 1 installation company so he has knowledge from all sides of the product. He is a great resource for not only our customers but our outside sales force also. So if you ever need a question answered or you are looking for that obscure product ask Kevin-he'll probably know the answer.
