

New Product

StormTrap® is a high quality and cost-effective Precast Concrete System for Stormwater Projects requiring Detention, Retention, Attenuation, Storage, Flood Relief, Large Treatment Systems, NPDES MS4 TMDL (Total Maximum Daily Loads) Reduction, and CSO's (Combined Sewer Overflow) Holding Tanks.

Each **StormTrap®** project is specifically designed and customized to meet the specific characteristics of each site. The **StormTrap®** patented design maximizes the total volume of water stored and treated in the system while minimizing the overall Project Costs.

Detention water tight
water harvesting

Retention infiltration
water recharge

Treatment filtration
sedimentation
oil/water separation

Some of the advantages of a StormTrap® System Includes:

- Lowest Stormwater Detention and Treatment Cost in the Industry
- Economically treat up to 500 CFS, or more
- Designed with standard engineering Treatment practices and industry proven and accepted methods
- Completely customizable weirs and baffles can be used for many other applications as well
- Can be designed to provide a large infiltration area to recharge the groundwater table
- Innovative design allows for quick and efficient installations and the smallest overall footprint
- High strength, 100 year life of concrete.
- Fast on-site installation
- All Systems are designed to meet a minimum of HS-20 Highway Truck loadings
- Can also be sized to support higher loading requirements for Fire Truck outrigger pads, or Airport Taxiways
- Completely open Storage area with minimal obstructions
- No hydraulic backup or head loss into the system
- 100% of the storage area is completely and easily accessible for Inspection & Maintenance

Company Information

ASP Enterprises, Inc. and Quick Supply Co.

For more than three decades, A.S.P. Enterprises and Quick Supply Co. has served the erosion control industry with integrity and expertise. We provide engineers and landscape contractors the exceptional value for their money and have grown to become the Midwest's full-line distributor of erosion-control, geosynthetics, storm water management products, wall block, landscape pavers, and drainage products.
