

## New Product

### Rumble Track™

- Designed to be placed on job site exit roads where they join public streets.
- Works by removing dirt, mud and other debris from the tires.
- Rumble Track™ is a proven preventative system that will reduce the need for water trucks and sweeping.
- Virtually Maintenance free.

### Rumble Grate™

- Used for extreme conditions:
- Job sites with clay and mud
  - Quarries
  - Aggregate
  - Landfills and scrap yards

**Currently Trackout Control is for Rent or Purchase. Call your ASP representative to find out pricing and availability.**

## Engineer's Note

### Always working hard for you!

Hola amigos! (Hi friends!) I'm happy to report that my mission trip to Nicaragua in July was a great success. Feel free to ask me about it someday. Please also feel free to ask any of our ASP/Quick Supply salesmen about our new engineering process for project opportunities. In an ongoing effort to improve our listening skills and our response times we have implemented an engineering process which involves collection of project data and contact info that we can share internally as we work together to provide you with product info, project solutions and budgetary cost estimates. As part of this effort we have developed some FAQs for some of our leading solutions. Look for those docs on our website or ask us about them today.

On a different subject, Guy Litteken and I represented ASP Enterprises/ Quick Supply Co. at StormCon 2015 in Austin, TX. We visited with many of our friends from StormTrap, Convergent Water Technologies, Construction EcoServices, ACF Environmental, Flexamat and many other great companies. We also enjoyed seeing many familiar faces from Omaha, Lincoln, Kansas City and around the Midwest. In keeping with ASP/Quick Supply's tradition of staying at the forefront of innovation we attended many stormwater sessions and explored all booths and products within the exhibit hall. Next month we will send some of our people to the WEFTEC conference in Chicago. Again, we are committed to staying ahead of the curve and sharing our best solutions with you.
