Another Innovative Hydro Seeding Product

**GUAR PLUS FORMULATION**

www.hydrostraw.com

Improved Performance
Contains 100% Natural Fibers
Get 50% More From Your Tank
Replaces Paper and Wood Mulches
Replaces Blown Straw

Tackifier Included**MIXTURE RATES**

60 lbs/100 Gallons For Most Work
 75 lbs/100 Gallons For Tough Work
 Get 50% More Coverage From Your Tank

Net Weight
50 lbs

MOISTURE CONTENT 18% (+/-) 3%

4% GUAR FORMULATION**LOADING DIRECTIONS**

Add 50% More Mulch
 Spray 50% More Area
 Per Tank Load

HYDROSTRAW LLC • 22110 S. STATE ROUTE 27 • ROCKFORD, WA 99030 • 800-545-1755

- Fiber with Tackifier
- Reduces guar gum break down by heavy rain fall events
- Guar Gum pre-mix eliminates the "fish-eyes" that can form within field mixing making the tackifier more effective
- Protection for difficult sites & conditions
- Erosion Control Prevention Product
- Contains 4% Guar (80lbs per 2000/lbs of Mulch)
- Load More Spray More – Use Less Water

HydroStraw's manufacturing process utilizes pressure and heat to break down the straw into a more fibrous material with greater surface area. This results in greater soil coverage, higher water retention and increased productivity, which lowers project costs. HydroStraw Guar Plus is designed to provide extra protection on difficult sites where slopes, soil conditions or weather call for extra erosion control ability. It also includes a high-strength polymer binder to ensure smooth hydro seeder operation.

VEGETATION ESTABLISHMENT MULCH

THE NATURAL PROGRESSION

DESCRIPTION

HydroStraw® Guar Plus is a hydraulically applied mulch with a specially formulated composition of annually renewable wheat straw fibers, natural fibers for fiber matrix entanglement, and a non-toxic soil stabilizer.

SPECIFICATIONS

This pre-blended product eliminates the extra step and mess of field mixing, Guar Gum pre-mix eliminates the "fish-eyes" that can form with in field mixing making the tackifier more effective. HydroStraw Guar Plus includes an additive to reduce guar gum break down by rain fall events.

Guar gum tackifier enhances the chemical bond within the mulch matrix for better erosion control, disperses quickly in water, which allows for better blending with seed and fertilizer. Ideal protection for critical slopes and sites where weather calls for an extra measure of protection.

Guar gum in field tests has shown that they will increase mulch fiber holding performance. The HydroStraw fibers combination increases the fiber entanglement and the tackifier bonds the fibers together and to the soil for improved holding power. HydroStraw Guar Plus consists of processed straw fibers, a natural guar gum tackifier and a non-toxic green colorant to aid in application. Field tests have shown HydroStraw mulch protects soil and enhances seed germination and establishment as the fibers biodegrades.

Non-toxic and environmentally safe, maximum slope length of 30 feet, use approved for mechanically agitated equipment for optimum pumping and application performance.

COMPOSITION	
Heat & Mechanically Treated™ (HMT) - wheat straw	80.0% ± 1.0%
Natural Fibers	6.0% ± 1.0%
Moisture	10.0% ± 1.0%
Guar Based Tackifier	4.0% ± 1.0%

MIXTURE RATES		
Hose Work	60 lbs per 100 gallons	27 kg per 379 Liters
Tower Work	75 lbs per 100 gallons	34 kg per 379 Liters

*Hose Work Rate may vary dependent on hydroseeder type and/or size and length of hose used

SLOPE GRADIENT/CONDITION	LB/ACRE	KG/HECTARE
≤ 4:1	2,000 lbs/ac	2,250 kg/ha
≤ 3:1	2,000 - 3,000 lbs/ac	2,250 - 3,350 kg/ha
≤ 2:1	3,000 - 4,000 lbs/ac	3,350 - 4,500 kg/ha
Soil Moisture Retention	2,000 - 3,500 lbs/ac	2,250 - 4,000 kg/ha
